- permit for long-term residents, holders of refugee status or subsidiary protection status will also be admitted to the selection;
- 2) age not less than 18 years;
 - 3) be in possession of one of the following degree titles: LM-17 Physics, LM-18 Computer science, LM-32 Computer engineering, LM-40 Mathematics, LM-44 Mathematical-physical modeling for engineering, LM-Data, or equivalent degree in accordance with D.I. 09/07/2009;
 - 4) documented professional experience not less than one year in the management of cloud computing and HPC platforms to support applications;
 - 5) physical suitability for employment. The Administration has the right to submit the winners of the competition to a medical check, based on current legislation;
 - 6) regular position with regard to military obligations;
 - 7) enjoyment of civil and political rights.

Those who have been excluded from the active political electorate and those who have been dismissed or exempt from employment with a public administration for persistent insufficient performance, or have been declared ineligible from a state employment, pursuant to art. 127, paragraph 1, letter d) of the T.U. of civil employees of the State, approved by D.P.R. 10.01.1957 n. 3

Citizens of Member States of the European Union, family Union citizens who are not citizens of a Member State who hold the right of residence or the right of permanent residence, holders of EU long-term residence permit, holders of refugee status or subsidiary protection status must meet the following requirements:

- a) be in possession, with the exception of the ownership of Italian citizenship, of all the other requirements provided for citizens of the Republic;
- b) have adequate knowledge of the Italian language.

The aforementioned requirements must be met on the date of expiry of the deadline for submitting applications for admission to the competition.

Candidates shall be admitted to the selection procedure with reservations. The Administration may order, at any stage of the procedure, even after the tests, with a reasoned provision of the General Manager, the exclusion from this procedure for lack of the prescribed requirements.

Article 3

Application and submission deadline

The application form, as well as the useful documents for the competition, must be submitted, under penalty of exclusion, electronically, using the dedicated computer application on the page <https://pica.cineca.it/uniba/23pnrr/>

The procedure for filling in and sending the application electronically must be completed no later than the fifteenth day following the publication of the notice on the online Praetorian Register of this University.

The computer application will necessarily require the possession of an e-mail address in order to self-register to the system. The applicant must enter all the data required for the production of the application and attach the documents in electronic PDF format.

The application form must be completed in all its parts, as indicated in the online procedure, and must include a copy of a valid identity document and curriculum vitae.

Once the payment has been made, the applicant must forward the application and check its status, which will change from from “draft” to “submitted” mode; the electronic presentation of the

application for participation is certified by the computer system by means of a receipt which will be automatically sent by e-mail.

Each application will be assigned an identification number which, together with the competition code indicated in the IT application, must be specified for any subsequent communication. At the end of the deadline for submission, the system will no longer allow access and submission of the electronic form. No other forms of sending applications or documents useful for participation in the procedure are permitted.

In the case of access to the platform via SPID, the procedure will not require a signature; in all other cases, the application must be signed:

- **by digital signature**, using smart cards, USB tokens or remote signatures, which allow the holder to sign generic documents using signature software on a PC or a web portal for Remote Signature made available by the Certification Authority. Whoever has a smart card or a Digital Signature USB token can verify its compatibility with the Digital Signature system integrated into the server system. In the event of a positive outcome, the holder will be able to sign the application directly on the server (e.g. ConFirma);
- **those who do not have compatible digital signature devices and Holders of Remote Digital Signatures** who have access to a portal for signing generic documents, must save the PDF file generated by the system on their PC and, without modifying it in any way, digitally sign it in CAdES format: a file with the.p7m extension will be generated which must be re-uploaded on the system. Any modification made to the file before affixing the Digital Signature will prevent the automatic verification of the correspondence between the content of this document and the original and this will result in the exclusion of the application;
- **if it is impossible to use one of the above options**, the candidate must save the PDF file generated by the system on his PC and, without modifying it in any way, print it and affix the complete handwritten signature on the last page of the printout. This complete document must be produced in PDF via scan and the file thus obtained must be uploaded to the system.

Participation in the competition involves the payment of a contribution of € 16.00 to cover stationery, organization of tests and postage costs, non-refundable, pending its destination in any eventuality.

The candidate must pay the fee by clicking on the "Paga con Pago PA" button and choose one of the following online payment methods:

- Credit/debit card: for payment with cards;
- Current account: for direct debit to your account;
- Other payment methods: for example PayPal or Satispay.

The payment of the application fee within the terms and in the manner indicated above is necessary for this Administration for the purpose of preparing and organizing the subsequent phases of the selection procedure and, therefore, is not refundable for any reason (e.g. exclusion, renunciation, absence, etc.) pending its destination.

The candidate must attach the following documentation to the application form by uploading it in the appropriate section of the portal:

- Dated and signed Curriculum vitae, containing the titles deemed useful for the purposes of the competition among those indicated in the following art. 5;
- publications deemed useful for the purposes of the competition;
- photocopy of a valid identity document and tax code.

taking advantage of an extension of the established times for carrying out the same test. The adoption of the aforementioned measures will be determined at the sole discretion of the Commission on the basis of the documentation submitted.

Art. 5

Evaluation of qualifications

The qualifications will be awarded an overall score of 30 points.

The categories of qualifications that can be evaluated, as long as they are relevant to the activities of the available places, are the following:

- 1) educational and training qualifications maximum 15 points;
- 2) professional experience up to a maximum of 10 points;
- 3) technical or specialist qualifications up to 5 points.

Art. 6

Selection commission

The Selection Commission of the competition will be appointed by Decree of the General Manager in accordance with the relevant provisions in force. The same will deal, among other things, with the assessment of the admission requirement referred to in the previous art. 2, first paragraph, point 4).

Article 7

Examinations

The exams will consist of a written test and an oral test.

The **written test**, also with a theoretical/practical content, will focus on issues relating to the management of cloud computing and HPC platforms in support of scientific applications.

The **oral exam** will focus on the topics indicated for the written exam and on university legislation. During the oral exam, the knowledge of the English language and the use of computer applications and the most popular application software will be ascertained.

The Administration may arrange for the tests to be carried out through the use of IT and digital tools.

Art. 8

Calendar of tests

The tests will be held according to the following schedule:

written test: 24 July 2023 at 15.00 pm;

oral exam: 31 July 2023 at 15.00 pm.
